- Customize it to your own needs and preferences

Feature Descriptions: Custom project views: Using GridIron Flow's custom views, you'll instantly be able to view a project's files by client, team member, source, link, or date. Collaborate: As an integrated-design team, GridIron Flow helps you improve collaboration and productivity by automatically syncing files with multiple team members. Efficient time management: Track time and work for your clients, and automatically generate invoices. GridIron Flow comes with preset, "gold-standard" project hours - everything from 40-hour weeks, to 20-hour weeks, and everything in between. File-tracking: Effortlessly track files, with automatic tagging and automatic sorting and categorization of files. For example, you'll know instantly who has a copy of your presentation deck, and how far along the project is. Team collaboration: GridIron Flow features a preconfigured system for project collaborations. Each individual's view automatically syncs with the other team members, who can instantly share and collaborate on files. View files from any device: Get access to your files from any device, instantly. You can even access and share files on your mobile device, and view files on other team members' computers. Manage teams: Create a team - complete with group projects, contacts, file permissions and more. Collaborate with your team and effortlessly share files. Control your workload: GridIron Flow features advanced time-tracking, so you can always see how much time you have available and how much

your team's activities cost. Advanced security features: Quickly and easily share files between team members with options like "lock", "shared with" and "unlock". You can also view every file to protect your

System Requirements:

Mac OS X 10.7 or higher 512MB RAM Windows 7 or higher 256MB RAM Here's the deal. A lot of great indie games were released in 2016, and while we might not have the hardware to play them all, we still wanted to review the ones we'd actually get to play. We're here for the underdogs, the ones that aren't widely celebrated. The ones that we know have quality to them, that will be played and loved by tons of people, but won
